To Whom It May Concern:

Jonathan Clark of Clark Ltd has been working on the computers at the Law Office of Ryan J Villa since 2017. We have nine workstations and several laptops that Mr. Clark keeps running by cleaning up the spyware, software updates and some complicated programs for viewing videos and other documents in the Cloud.

Mr. Clark is very reliable and knowledgeable. He is very flexible and accommodating to our needs to have our computers running at all times. Re: *Clarkltd, Jonathan Clark*

To Whom It May Concern:

I am a Managing Shareholder at Crowley & Gribble, P.C., a three attorney law firm which is located in Albuquerque, New Mexico. Clarkltd, (Jonathan Clark and Robert Clark) have provided Information Technology Consultant services to our firm for over ten (10) years.

Jonathan Clark has recently taken over more of the work from his father and, recently, we had a new printer/copier installed which required incorporating all information from our computers to the printer/copier so that we would be able to scan, fax, copy, etc. Mr. Clark was extremely helpful in this regard and was able to capably handle the transition to the new copier, which made our lives much easier.

Mr. Clark is extremely accessible by phone, text, or email. At times of emergency situations (computer crash, etc.) Mr. Clark is able to rearrange his scheduled work in order to rush to our aid. Our office has been very satisfied with Clarkltd's (and Jonathan Clark's) knowledge, efficiency, and competency. I would proudly recommend Jonathan Clark for all of your Information Technology Consultant services.

Respectfully,

CLAYTON E. CROWLEY, ESQ.

To Whom it may concern:

I met Jonathan Clark when his mother was working at Will Ferguson's and his father was maintaining all of the computers, servers and software for Will Ferguson's firm, and that was in 2008.

Jonathan is all grown up and he has joined his father as a computer technician and specialist. He recently cleanup up my laptop, my desk top and he reinstalled all of my QuickBooks and dropbox along with my adobe and Microsoft programs so that they are all working properly at the present time.

I would recommend him for your computer needs. He has been trained well.

Sincerely,

Roger Eaton
